The Corporation may offer insurance on the basis of (1) not to exceed 75 percent of the investment in the crop, as determined by the Corporation, and (2) not to exceed 75 percent of the average yield of tobacco for the farm adjusted for the average quality of tobacco produced on the farm. In any county in which more than one plan of insurance is offered, a producer may insure his interest under only one such plan.

(b) Tobacco crop insurance will not be provided in any county unless written applications for such insurance are filed covering at least fifty farms: *Provided, however,* That in Hartford County, Connecticut, Jefferson County, Indiana, Simpson County, Kentucky, Charles County, Maryland, Brown County, Ohio, and Montgomery County, Tennessee, such insurance will not be provided unless written applications are filed covering at least one-fourth of the farms in the county normally producing insurable types of tobacco.

§ 417.52 *Application for insurance.* Application for insurance, on a form entitled "Application for Tobacco Crop Insurance," may be made by any person to cover his interest as landlord, owner-operator, tenant, or sharecropper, in a tobacco crop to be grown in 1946. An application shall cover the applicant's interest in the tobacco crop on all insurance units considered for crop insurance purposes to be located in the county in which the application is filed and in which the applicant has an interest at the time of planting. Applications shall be submitted to the office of the county association on or before the applicable closing date shown in § 417.93 hereof.

§ 417.53 *Acceptance of applications by the Corporation.* (a) Upon acceptance of an application by a duly authorized representative of the Corporation, the insurance contract shall be in force and effect, *provided,* Such application is submitted in accordance with the provisions of the application and of this subpart, including any amendments thereto. The applicant's copy of the accepted application shall be mailed to him.

(b) The Corporation reserves the right to reject any application for insurance with respect to any one or more of the insurance units covered by the application, or to limit the insurance on the applicant's interest in any insurance unit covered by the application.

INSURANCE COVERAGE

§ 417.54 *Insurable and non-insurable farms.* Any farm or part thereof which is designated on the crop insurance listing sheet as "non-insurable," because of the insurance risk involved, shall not be considered in any manner whatsoever under the insurance contract, except as provided in § 417.67 (b) hereof. The Corporation may determine that a farm or part thereof is noninsurable and so designate it on the listing sheet at any time before the applicable calendar closing date for the filing of applications for insurance. Any farm or part thereof not so designated is insurable.

§ 417.55 *Determination of insured acreage.* Insurance shall not attach with respect to any acreage planted to tobacco which is destroyed or substantially destroyed and which can be replanted before it is too late to replant to tobacco, as determined by the Corporation, and such acreage is not replanted to tobacco. Promptly after planting a tobacco crop the insured shall submit to the Corporation on a form entitled "Tobacco Crop Insurance Acreage Report" a separate report of the acreage planted to tobacco on each insurance unit in which he has an interest at the time of planting and his interest at the time of planting in such tobacco crop. The insured acreage with respect to each insurance unit shall be either the acreage of tobacco planted as reported by the insured or the acreage determined by the Corporation as planted thereon, whichever the Corporation shall elect: *Provided, however.* That if the acreage of any type of tobacco on a farm exceeds the 1946 tobacco acreage allotment, if any, established for that type of tobacco on the farm under the Agricultural Adjustment Act of 1938, as amended, the maximum insured acreage for that type of tobacco for each insurance unit on the farm shall be the same proportion of the planted acreage on that unit that the allotment for the farm is to the total planted acreage on the farm.

§ 417.56 *Insurance period.* Insurance with respect to any insured acreage shall attach at the time the crop is planted. Insurance shall cease with respect to that portion of the crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), or weighing of the tobacco for casing, but in no event shall the insurance remain in effect later than the following applicable date, unless such time is extended in writing by the Corporation.

§ 417.57 *Amount of insurance.* (a) The amount of investment insurance per acre shall be the amount determined by the Corporation pursuant to § 417.82 hereof for the level of insurance shown on the approved application. The amount of investment insurance for each insurance unit under the contract shall be the product of (1) the insured acreage, (2) the amount of investment insurance per acre, and (3) the insured interest in the crop; *Provided, however,* That with respect to any cropping unit on which the tobacco crop is determined by the Corporation to be destroyed or substantially destroyed before harvesting or the first priming, the amount of investment insurance shall be 65 percent of the amount otherwise determined. If for parts of an insurance unit different amounts of investment insurance per acre are applicable, the amount of investment insurance shall be computed separately for each part and the total of such computed amounts shall be the amount of investment insurance for the insurance unit.

(b) The amount of yield-quality insurance for each insurance unit under the contract shall be the product of (1) the insured acreage, (2) the insured percentage of the average yield adjusted for the average quality, (3) the insured interest in the crop, and (4) the market price: *Provided, however,* That with respect to any cropping unit on which the tobacco crop is determined by the Corporation to be destroyed or substantially destroyed before harvesting or the first priming, the amount of yield-quality insurance shall be 65 percent of the amount otherwise determined. If more than one average yield or average quality has been established for the insurance unit, the amount of yield-quality insurance shall be computed separately using the applicable acreage for each yield or quality and the total of such computed amounts shall be the amount of yield-quality insurance for the insurance unit.

§ 417.58 *Partial yield-quality insurance.* In the case of yield-quality insurance on the basis of the highest insured percentage available, if the applicant does not wish to obtain the entire amount of insurance protection, he may elect on his application to obtain 40, 50, 60, 70, or 80 percent thereof. Where the applicant elects to obtain partial insurance, the premium and any indemnity which otherwise would be payable shall be reduced accordingly.

§ 417.59 *Causes of loss insured against.* The insurance contract shall cover loss of tobacco due to unavoidable causes, including drought, flood, hail, wind, frost, winterkill, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation, plant disease, pole burn, and such other unavoidable causes as may be determined by the Board of Directors of the Corporation: *Provided, however,* That in Hartford County, Connecticut, Jefferson County, Indiana, Simpson County, Kentucky, Charles County, Maryland, Brown County, Ohio, and Montgomery County, Tennessee, the insurance contract shall not cover loss of

tobacco due to wind, lightning, fire, hurricane, or tornado, where such loss occurs after harvest.

§ 417.60 *Causes of loss not insured against.* The contract shall not cover loss caused by the neglect or malfeasance of the insured or of any person in his household or employment or connected with the farm as tenant, sharecropper, or wage hand; nor shall it cover losses caused by theft, domestic animals, failure properly to prepare the land for planting, or properly to plant, care for, harvest, or cure the insured crop, including any loss due to breakdown of machinery or equipment, or by failure to replant the tobacco in areas and under circumstances where the Corporation determines it is practicable to replant. The contract also shall not cover loss caused by planting tobacco on land of poorer average quality than the average quality of land used in establishing the amount of insurance and premium rate, following a fertilizer or other practice different from that considered in establishing the amount of insurance and premium rate, or planting tobacco under conditions of immediate hazard; nor shall it cover loss due to planting tobacco on a portion of the insurance unit where the farming hazards differ materially from the farming hazards for the acreage considered in establishing the amount of insurance and premium rate for such unit. Likewise, the contract shall not cover loss caused by inability to obtain labor, fertilizer, machinery, repairs, or insect poisons.

PREMIUM FOR INSURANCE CONTRACT

§ 417.61 *Amount of premium.* The premium for each insurance unit under the contract shall be determined by multiplying the insured acreage of tobacco for the insurance unit by the premium rate per acre (dollars in the case of investment insurance and pounds of tobacco of the type insured in the case of yield-quality insurance) and by the insured interest in the crop at the time of planting, and in the case of yield-quality insurance only, by the market price. If, for different acreages of the insurance unit, varying premium rates are applicable, a premium shall be computed separately using the applicable acreage for each rate, and the total of the amounts so computed shall be the premium for the insurance unit. The premium for the insurance contract shall be the total of the premiums computed for the insured for all insurance units covered by the contract. If the insurance contract provides for partial insurance in accordance with the provisions of § 417.58 hereof, the premium computed as set forth above in this section, shall be reduced accordingly. The premium with respect to any insured acreage shall be regarded as earned when the tobacco crop on such acreage is planted. The minimum premium payable by the insured with respect to any insurance contract shall be three dollars.

§ 417.62 *Manner of payment of premium.* (a) By executing a form entitled "Application for Tobacco Crop Insurance," the applicant executes a premium note. This note represents a promise to pay the Corporation the total premium for all insurance units covered by the insurance contract, on or before the maturity date specified in § 417.94 hereof. Such note shall bear interest after maturity at the rate of one-half of one percent for each calendar month or fraction thereof, except that no interest shall be charged on any amount paid within two calendar months after maturity.

(b) Payment on any such note may be made in cash only. If the amount paid exceeds the premium, such excess shall be refunded in accordance with §§ 417.79, 417.80 and 417.81 hereof.

(c) Any unpaid amount of any premium note (either before or after the date of maturity) may be deducted from any indemnity payable by the Corporation, from the proceeds of any commodity loan to the insured, and from any payment made to the insured under the Soil Conservation and Domestic Allotment Act, as amended, or any other act of Congress or program administered by the United States Department of Agriculture. Where any such deduction is made before the date of maturity of any note for yield-quality insurance, the amount of the deduction will be based on an estimate of the amount of the premium.

(d) Payments in cash shall be made by means of cash or by check, money order, or bank draft payable to the order of the Treasurer of the United States. All checks and drafts will be accepted subject to collection, and payments tendered shall not be regarded as paid unless collection is made.

LOSS

§ 417.63 *Notice of loss or damage of tobacco crop.* Unless otherwise provided by the Corporation, if a loss is probable, notice in writing shall be given the Corporation at the office of the county association immediately after any material damage to the insured crop and before the crop is harvested, sold, removed, or any other use is made of it. Any such notice shall be given in time to allow the Corporation to make appropriate inspection.

§ 417.64 *Released acreage.* Any insured acreage on which the tobacco crop has been destroyed or substantially destroyed may be released by the Corporation to be put to another use. The tobacco crop shall be deemed to have been substantially destroyed if the Corporation determines that it has been so badly damaged that farmers generally in the area, where the farm is located and on whose farms similar damage occurred, would not further care for the crop or harvest any portion thereof. No acreage planted to tobacco shall be considered as put to another use as long as any tobacco on such acreage remains for harvest. On any acreage where the tobacco has been partially destroyed but not released by the Corporation, proper measures shall be taken to protect the crop from further damage. There shall be no abandonment of any crop or portion thereof to the Corporation.

§ 417.65 *Time of loss.* Loss, if any, shall be deemed to have occurred at the end of the insurance period as set forth in § 417.56 hereof, unless the Corporation determines that the tobacco crop was destroyed or substantially destroyed earlier, in which event the loss shall be deemed to have occurred on the date so determined by the Corporation.

§ 417.66 *Proof of loss.* If a loss is claimed, the insured shall submit to the Corporation a form entitled "Statement in Proof of Loss," containing such information regarding the manner and extent of the loss as may be required by the Corporation. The statement in proof of loss shall be submitted not later than sixty days after the time of loss, unless the time is extended in writing by the Corporation. It shall be a condition precedent to any liability under the insurance contract that the insured establish that any loss for which claim is made has been directly caused by one or more of the hazards insured against by the insurance contract during the term of the contract, and that the insured further establish that the loss has not arisen from or been caused by, either directly or indirectly, any of the hazards not insured against by the insurance contract.

§ 417.67 *Amount of loss.* (a) The amount of loss with respect to any insurance unit will be the amount of insurance under the contract for such insurance unit, less (1) the cash returns from the insured interest in the tobacco harvested from the insurance unit and sold on the warehouse floor, (2) the fair market value, as determined by the Corporation, of the insured interest in the tobacco harvested from the insurance unit and not sold on the warehouse floor, (3) the appraised cash value of the insured interest in the tobacco on the insurance unit not harvested, and (4) the appraised cash value of the insured interest in the tobacco in any portion of the insured tobacco acreage that is put to another use without the consent of the Corporation, but the amount shall not be less than the amount of insurance applicable to such acreage: *Provided, however,* That if all or any part of the loss is due to causes not insured against, such amount shall be reduced by the cash value of the insured interest under the contract in the tobacco which the Corporation determines was lost from such causes: *Provided, further,* That if the planted acreage on the insurance unit exceeds the insured acreage on such unit, as determined by the Corporation, the indemnity computed on the basis of the planted acreage shall be reduced accordingly: *Provided, further,* That if varying amounts of insurance are provided, or if varying premium rates are established for parts of the insurance unit, or if the insured has different shares in parts of the tobacco on the insurance unit, such apportionment may, if the Corporation so elects, be made on the basis of the ration of the premium computed for the reported acreage to the premium computed for the reported acreage to the premium computed for the planted acreage.

(b) Where the insured fails to establish and maintain separate records of acreage or production for the component parts of a combination of two or more insurance units or portions thereof, the insurance with respect to such units under the contract may be voided by the Corporation and the premium forfeited by the insured: *Provided, however,* That if all the component parts of the combination are insured the total amount of insurance for the component parts shall be considered as the amount of insurance for the combination, and any loss for such combination shall be determined as outlined in paragraph (a) of this section. Where the insured fails to establish and maintain separate records of acreage or production for non-insurable acreage and for one or more insurance units or portions thereof, any production from the non-insurable acreage which is commingled with the production from the insured acreage shall be considered to have been produced on the insured acreage, or the insurance with respect to such unit(s) under the contract may be voided by the Corporation and the premium forfeited by the insured.

(c) If the insurance contract provides for partial insurance in accordance with the provisions of § 417.58 hereof, the amount of loss computed as set forth above in paragraphs (a) and (b) of this section shall be reduced accordingly.

PAYMENT OF INDEMNITY

§ 417.68 *When indemnity payable.* (a) The amount of loss for which the Corporation may be liable with respect to any insurance unit covered by the insurance contract shall be payable within thirty days after satisfactory proof of loss is approved by the Corporation. However, if payment of any indemnity is delayed for any reason beyond the time specified, the Corporation shall not be liable for interest or damages on account of such delay.

§ 417.69 *Indemnity payment.* (a) Any indemnity due under the insurance contract shall be paid by the issuance of a check payable to the order of the person(s) entitled to such payment under this subpart.

(b) Any indemnity payable under an insurance contract shall be paid to the insured, his beneficiary, or such other person as may be entitled to the benefits of the insurance contract under this subpart, notwithstanding any attachment, garnishment, receivership, trustee process, judgment, levy, equity, or bankruptcy directed against the insured or such other person, or against any indemnity alleged to be due to such person; nor shall the Corporation or any officer, employee, or representative thereof be a proper party to any suit, or action with reference to such indemnity nor be bound by any judgment, order, or decree rendered or entered therein. No officer, agent, or employee of the Corporation shall, because of any such process, order, or decree, pay or cause to be paid, to any person other than the insured, his beneficiary (designated by the insured on the application for tobacco crop insurance), or other person entitled to the benefits of the insurance contract, any indemnity payable in accordance with the provisions of the insurance contract. Nothing herein contained shall excuse any person entitled to the benefits of the insurance contract from full compliance with, or performance of, any lawful judgment, order, or decree with respect to the disposition of any sums paid thereunder as an indemnity.

(c) The Corporation shall provide for the posting in each county at the county courthouse of a list of indemnities paid for losses on the 1946 tobacco crop on farms in such county.

§ 417.70 *Other insurance.* (a) If the insured has or acquires any other insurance against fire on the crop, or portion thereof, covered by the insurance contract, regardless of whether such other insurance is valid or collectible, the Corporation shall only be liable, in the event of a loss due to such risk, for the smaller of either (1) the amount of the insurance coverage under the contract or (2) the amount by which the loss from such risk exceeds the indemnity paid or payable under such other insurance.

(b) If the insured has or acquires any other insurance against substantially all the risks that are insured against by the Corporation under the insurance contract on the crop or portion thereof covered in whole or in part by such insurance contract, regardless of whether such other insurance is valid or collectible, the liability of the Corporation shall not be greater than its share would be if the amount of its obligations were divided equally between the Corporation and such other insurer.

(c) In any case where an indemnity is paid to the insured by another Government agency because of damage to the tobacco crop, the Corporation reserves the right to determine its liability under the insurance contract taking into consideration the amount paid by such other agency.

§ 417.71 *Subrogation.* The Corporation may require from the insured an assignment of all rights of recovery against any person(s) for loss or damage to the extent that payment therefor is made by the Corporation, and the insured shall execute all papers required and shall do everything that may be necessary to secure such rights.

§ 417.72 *Creditors.* An interest existing by virtue of a debt, lien, mortgage, garnishment, levy, execution, bankruptcy, or any other process shall not be considered an interest in an insured crop within the meaning of this subpart.

PAYMENT OF INDEMNITY TO PERSONS OTHER THAN ORIGINAL INSURED

§ 417.73 *Indemnities subject to all provisions of insurance contract.* Indemnities payable to any person shall be subject to all provisions of the insurance contract, including the right of the Corporation to deduct from any such indemnity the unpaid amount of the note of the original insured for the payment of the earned premium or any other obligation of the insured to the Corporation: *Provided, however,* That in case of a transfer of an interest in an insured crop, such deduction to be made from an indemnity payable to the transferee shall not exceed the premium due on the insurance unit or units involved in the transfer, plus the unpaid amount of any other obligation of the transferee to the Corporation. Any indemnity payable to any person other than the original insured as a result of a transfer, or otherwise, shall be subject to any collateral assignment of the insurance contract by the original insured.

§ 417.74 *Collateral assignment of right under insurance contract.* The right to an indemnity under an insurance contract may be assigned by the original insured as collateral security for a loan or other obligation of such insured. Such assignment shall be made by the execution of a form entitled "Collateral Assignment," and, upon approval thereof by the Corporation, the interests of the assignee will be recognized if an indemnity is payable under the insurance contract, to the extent of the amount determined to be the unpaid balance of the amount (including interest and other charges) for which such assignment was made as collateral security: *Provided, however,* That (1) payment of any indemnity will be subject to all conditions and provisions of the insurance contract and to any deductions authorized under § 417.73 hereof, and (2) payment of the indemnity may be made by check payable jointly to all persons entitled thereto and such payment shall constitute a complete discharge of the Corporation's obligation with respect to any loss under the insurance contract. The Corporation's approval of an assignment shall not create in the assignee any right other than that derived from the assignor. The Corporation shall in no case be bound to accept notice of any assignment of the insurance contract, and nothing contained in any assignment shall give any right against the Corporation to any person other than the insured except to an assignee approved by the Corporation. Only one such assignment will be recognized in connection with the insurance contract, but if an assignment is released, a new assignment may be made.

§ 417.75 *Payment to transferee.* In the event of a transfer of all or a part of the insured interest in a tobacco crop before the beginning of harvest or the time of loss, whichever occurs first, the transferor shall immediately notify the Corporation thereof in writing at the office of the county association. The transferee under such a transfer shall be entitled to the benefits of the insurance contract with respect to the interest so transferred, subject to any assignment made by the original insured in accordance with § 417.74 hereof: *Provided, however,* That an involuntary transfer of an insured interest in a tobacco crop solely because of the existence of a debt, lien, mortgage, garnishment, levy, execution, bankruptcy, or other process shall not entitle any holder of any such interest to any benefits under the insurance contract: *Provided, further,* That the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than would have been paid if the transfer had not taken place. If, as a result of any such

transfer, diverse interests appear with respect to any insurance unit, the indemnity, if any, payable with respect to such unit may be paid jointly to all persons having the insured interest in the crop at the time harvest is commenced or the time of loss, whichever occurs first, or to one of such persons on behalf of all such persons, and payment in any such manner shall constitute a complete discharge of the Corporation's liability with respect to such unit under the insurance contract.

§ 417.76 *Death, incompetence, or disappearance of insured.* (a) If no beneficiary has been designated by the insured (or if designated, is ineligible or unavailable) and if the insured dies, is judicially declared incompetent, or disappears, before the time of loss or the time harvest is commenced, whichever occurs first, and his insured interest in a tobacco crop is a part of his estate at such time, or if the insured dies, is judicially declared incompetent, or disappears subsequent to such time, the indemnity, if any, shall be paid to the legal representatives of his estate, if one is appointed or is duly qualified. If no such representative is or will be so qualified, the indemnity shall be paid to the persons beneficially entitled to share in the insured's interest in the crop or to any one or more of such persons on behalf of all such persons: *Provided, however,* That if the amount of the indemnity exceeds $500, the Corporation may withhold the payment of the indemnity until a legal representative of the insured's estate is duly qualified to receive such payment.

(b) If no beneficiary has been designated by the insured (or if designated, is ineligible or unavailable) and the insured dies, is judicially declared incompetent, or disappears before the time harvest is commenced or the time of loss, whichever occurs first, and his interest in the crop is not a part of his estate at such time, the indemnity, if any, shall be paid to the person(s) who succeeded to his interest in the crop in the manner provided for in § 417.75 hereof.

(c) If a beneficiary has been named by the insured and if the insured dies, is judicially declared incompetent, or disappears, payment of any indemnity to which the insured is entitled will be made to such beneficiary if eligible and available.

(d) If an applicant for insurance dies or is judicially declared incompetent before the tobacco crop intended to be covered by insurance is planted, whoever succeeds him on the farm with the right to produce the tobacco crop as his heir or heirs, administrator, executor, guardian, committee, or conservator shall be substituted for the original applicant upon filing with the office of the county association, within fifteen days (unless such period is extended by the Corporation) after the date of such death or judicial declaration, or before the date of the beginning of planting, whichever is the earlier, a statement in writing, in the form and manner prescribed by the Corporation, requesting such substitution and agreeing to assume the obligations of the original applicant arising out of such application. If no such statement is filed, as required by this paragraph, the original application shall be void and no insurance shall be in effect with respect to the tobacco crop covered thereby.

(e) The insured shall be deemed to have disappeared within the meaning of this subpart if he fails to file with the county committee written notice of his new mailing address within 180 calendar days after any communication by or on behalf of the Corporation is returned undeliverable at the last known address of the insured.

§ 417.77 *Fiduciaries.* Any indemnity payable under an insurance contract entered into in the name of a fiduciary who is no longer acting in such capacity at the time for the payment of indemnity will be made to the succeeding fiduciary upon appropriate application and proof satisfactory to the Corporation of his incumbency. If there is no succeeding fiduciary, payment of the indemnity shall be made to the persons beneficially entitled under the regulations in this part to the insured interest in the crop, to the extent of their respective interests, upon proper application and proof of the facts: *Provided, however,* That the settlement may be made with any one or more of the persons so entitled, and payment may be made to such person or persons in behalf of all the persons so entitled, whether or not the person to whom payment is made has been authorized by the other interested persons to receive such payment.

§ 417.78 *Determination of person to whom indemnity shall be paid.* In any case where the insured has transferred his interest in all or a portion of the tobacco crop on any insurance unit, or has ceased to act as a fiduciary, or has died, has been judicially declared incompetent or has disappeared and has not designated a beneficiary or, if designated, such beneficiary is deceased or is otherwise unavailable or ineligible, payment in accordance with the provisions of the regulations in this part will be made only after the facts have been established to the satisfaction of the Corporation. The determination of the Corporation as to the existence or nonexistence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment will be made shall be final and conclusive. Payment of any indemnity under this section shall constitute a complete discharge of the Corporation's obligation with respect to the loss for which such indemnity is paid and settled and shall be a bar to recovery by any other person.

REFUNDS OF EXCESS NOTE PAYMENTS

§ 417.79 *Refunds of excess note payments.* The Corporation shall not be required to make a refund of any excess payment made on account of a note until the acreage planted to tobacco on all insurance units covered by the insurance contract has been determined. In the case of a note for yield-quality insurance, the Corporation shall not be required to make such a refund until the acreage planted to tobacco on all such units and the market price of tobacco are determined.

There shall be no refund of an amount less than $1.00, with respect to payments made either before or after the maturity of the note, unless written request for such refund is received by the Corporation within one year after the date of maturity of the note.

§ 417.80 *Assignment or transfer of claims for refunds not permitted.* No claim for a refund, or any part thereof, or any interest therein, shall be assignable or transferable, notwithstanding any assignment of the insurance contract or any transfer of interest in any tobacco crop covered by the insurance contract. Refund of any excess note payment will be made only to the person who made such payment except as provided in § 417.81 hereof.

§ 417.81 *Refund in case of death, incompetence, or disappearance.* In any case where a person who is entitled to a refund of a payment has died, has been judicially declared incompetent, or has disappeared, the provisions of § 417.76 hereof with reference to the payment of indemnities in any such case shall be applicable with respect to the making of any such refund.

ESTABLISHMENT OF AMOUNT OF INVESTMENT INSURANCE, AVERAGE YIELDS, AVERAGE QUALITY, AND PREMIUM RATES

§ 417.82 *Determination of amount of investment insurance per acre.* The Corporation shall establish the amount of investment insurance per acre (in dollars) for each type of tobacco for farms in the county: *Provided, however,* That the amount of insurance shall not exceed 75 percent of the product of (1) the average yield for the farm adjusted for the average quality of tobacco produced on the farm, and (2) the price per pound of tobacco, as established by the Corporation for the purpose of determining this limitation.

§ 417.83 *Determination of farm average yields of tobacco per acre.* The Corporation shall establish average yields for each type of tobacco for farms in the county on the basis of the recorded or appraised yields for a representative period of years and shall, where necessary, adjust such yields so that the average yields for farms in the same area which are subject to the same conditions shall be fair and just.

§ 417.84 *Determination of average quality of tobacco for the farm.* The Corporation shall establish the average quality of each type of tobacco for all farms in the county for which farm average yields have been established.

§ 417.85 *Determination of premium rates per acre.* The Corporation shall establish premium rates for each type of tobacco for all farms in the county for which amounts of insurance and farm average yields have been established, in amounts deemed adequate to cover claims for 1946 tobacco crop losses and to provide a reasonable reserve against unforeseen losses.

§ 417.86 *Amount of investment insurance, average yields, average quality, and premium rates where farm varies widely in productivity or farming haz-*

ards or where tracts of the farm are widely separated. If the land comprising any farm consists of tracts varying widely in cost of production, productivity, topography, or farming hazards, or if tracts of the farm are widely separated, separate amounts of investment insurance, average yields, average quality, and premium rates may be established by the Corporation for such tracts on the basis of appraisal, taking into consideration the yield data available.

GENERAL

§ 417.87 *Meaning of terms.* For the purpose of the 1946 Tobacco Crop Insurance Program, the term:

(a) "Average quality" means the ratio, as established by the Corporation, which the recorded or appraised average price of each type of tobacco produced on the farm for a representative period of years bears to the recorded average price of such tobacco for such period of years.

(b) "Average yield" means the average yield of each type of tobacco per acre established by the Corporation for each farm or portion thereof.

(c) "Corporation" means the Federal Crop Insurance Corporation.

(d) "County association" means the county agricultural conservation association in the county.

(e) "County committee" means the county agricultural conservation committee for the county.

(f) "Crop insurance listing sheet" means the form prescribed by the Corporation for the purpose of maintaining a record of insurance units, amount of investment insurance, average yields, average quality, premium rates, and any other related information with respect to such insurance units. The crop insurance listing sheet is on file in the office of the county association and is available for inspection by any producer whose farm is listed thereon.

(g) "Cropping unit" means all of that acreage of an insurable type of tobacco on a farm in which one person has the entire interest or in which two or more persons have the entire interest, excluding any other acreage of tobacco on the farm in which such persons together do not have the entire interest.

(h) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also: (1) any other adjacent or nearby farm land which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm constitutes a unit with respect to the rotation of crops: *Provided, however,* That for the purpose of determining the minimum participation for a crop insurance program in any county, the term "farm" means that acreage of land which constitutes an insurance unit, except that where a landlord and all of his tenants or sharecroppers file applications for insurance and all of the landlord's tobacco acreage is worked by tenants or sharecroppers, the number of farms to be counted shall be one less than the number of insurance units.

A farm shall be regarded as located in the county for crop insurance purposes if it is listed on the 1946 crop insurance listing sheet originally approved for such county. However, if a farm is not listed on the crop insurance listing sheet for a county before the applicable closing date for accepting applications in the county, the farm shall be regarded as located in the county in which the principal dwelling is situated, or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(i) "Insurance contract" means the contract of insurance entered into between the applicant and the Corporation by virtue of the application for insurance and the regulations in this subpart and any amendments thereto.

(j) "Insurance unit" means all or that portion, as the case may be, of the farm (considered for the purpose of establishing the amount of investment insurance per acre, average quality, average yield, and premium rate) in which the insured has an interest as a tobacco producer at the time of planting, except that when separate amounts of investment insurance per acre, yields, and rates have been established for widely separated parts of such land, such portions of the land shall constitute separate insurance units: *Provided, however,* That if an insured producer has an interest in two types of tobacco, the acreage of each shall be considered separately in determining what constitutes an insurance unit: *Provided, further,* That all or any part of such land which is designated on the crop insurance listing sheet in the office of the county association as "noninsurable" because of the insurance risk involved, shall not constitute an insurance unit or any part thereof and shall not be considered in any manner whatsoever under the insurance contract, except as provided in § 417.67 (b) hereof.

(k) "Insured percentage" means the percentage of the average yield of tobacco per acre, adjusted for average quality, for an insurance unit covered by an insurance contract.

(l) "Insured interest" means either the insured's reported interest in the crop at the time of planting, or the interest which the Corporation determines as the insured's actual interest at the time of planting, whichever the Corporation shall elect, except that for the purpose of determining loss, the insured interest shall not exceed the insured's actual interest at the beginning of harvest or the time of loss, whichever occurs first.

(m) "Market price", in the case of tobacco of type 11, 12, 13, 14, 22, 31, and 35, means the net average price of the applicable type, as determined by the Corporation, during the first five days of auction sales for the belt or areas, adjusted, where applicable, for normal trend. In the case of tobacco of type 32, 41, 51, 52, and 55, the "market price" shall be that price determined by the Corporation.

(n) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity and, wherever applicable, a state, or political subdivision of a state, or any agency thereof.

(o) "Planting" means transplanting the tobacco plant from the plant bed to the field.

(p) "Premium rate" means the premium rate per acre established by the Corporation.

(q) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the tobacco crop thereon or of the proceeds therefrom.

(r) "State committee" means the State Agricultural Conservation Committee for the State.

(s) "State Director" means the representative of the Corporation in the operation of the crop insurance program in the State.

(t) "Tenant" means a person other than a sharecropper who rents land from another person (for cash, a fixed commodity payment, or a share of the crop or proceeds therefrom) and is entitled under a written or oral lease or agreement to receive all or a share of the crop or proceeds therefrom produced on such land.

(u) "Tobacco crop" means the types of tobacco specified in § 417.51 hereof.

(v) "Warehouse" means auction or other warehouse where tobacco is sold, or pooled for selling cooperatively.

§ 417.88 *Records and access to farm.* For the purpose of enabling the Corporation to determine the loss, if any, that may have occurred under the insurance contract, the insured shall keep or cause to be kept for one year after the time of loss, records of the harvesting, sale or other disposition of all tobacco produced on each insurance unit covered by the insurance contract. Such records shall be made available for examination by the Corporation and as often as may reasonably be required any person or persons designated by the Corporation shall have access to the farm. (See § 417.67 hereof.)

§ 417.89 *Review of determinations of county and state committees.* Any determination by a county or state committee shall be subject to review and approval or revision by duly authorized representatives of the Corporation.

§ 417.90 *Applicant's warranties; voidance for fraud.* In applying for insurance the applicant warrants that the information, data, and representations submitted by him in connection with the insurance contract are true and correct, and are made by him, or by his authority, and shall be taken as his act. The insurance contract may be voided and the premium forfeited to the Corporation without the Corporation's waiving any right or remedy, including its right to collect the amount of the note executed by the insured, whether before or after maturity, if at any time the insured has concealed any material fact or made any false or fraudulent statements relating to the insurance con-

tract, the subject thereof, or his interest in the tobacco crop covered thereby, or if the insured shall neglect to use all reasonable means to produce, care for or save the tobacco crop covered thereby, whether before or after damage has occurred, or if the insured fails to give any notice, or otherwise fails to comply with the terms of the contract, including the note at the time and in the manner prescribed.

§ 417.91 *Modification of insurance contract.* No notice to any county committee or representative of the Corporation or knowledge possessed by any such county committee or representative or by any other person shall be held to effect a waiver of or change in any part of the insurance contract or to estop the Corporation from asserting any right or power under such contract; nor shall the terms of such contract be waived or changed except as authorized in writing by a duly authorized officer or representative of the Corporation; nor shall any provision or condition of the insurance contract or any forfeiture be held to be waived by any delay or omission by the Corporation in exercising its rights and powers thereunder or by any requirement, act, or proceeding, on the part of the Corporation or of its representatives, relating to appraisal or to any examination herein provided for.

§ 417.92 *Rounding of fractional units.* Yields per acre, premium rates for yield-quality insurance, actual production, and appraised production per acre, shall be rounded to the nearest pound. Amounts of money, other than market prices, shall be rounded to the nearest cent. The total acreage for an insurance unit shall be rounded to the nearest tenth of an acre. Computations shall be carried to one digit beyond the digit that is to be rounded. If the extra digit is 1, 2, 3, or 4, the rounding shall be downward. If the extra digit computed is 6, 7, 8, or 9, the rounding shall be upward. If the extra digit computed is 5, the computation shall be carried to another digit. If the two extra digits are 50, the rounding shall be downward, and if the two extra digits are 51 or any higher figure, the rounding shall be upward.

§ 417.93 *Closing dates for submission of applications.* The closing dates established by the Corporation for the submission of applications to the office of the county association shall be the date of the beginning of planting of the tobacco crop on any insurance unit covered by the application, or the following applicable date, whichever is earlier:

PART 706—CARE AND DISPOSITION OF THE PSYCHOTIC

DISPOSITION OF THE PSYCHOTIC

Sections 701.1 (a) and 701.2 are amended as follows in revision of AR 600-500, 25 May 1944:

1. The part headnote is amended to read as set forth above.

2. The first portion of § 706.1 (a) is amended by substituting the word "psychotic" in lieu of the word "insane".

3. Section 706.2 is superseded by the following § 706.2.

§ 706.2 *Applicants for enlistment or selectees.* Applicants for enlistment or selectees discovered to be psychotic after arrival at a military station, and before the completion of their enlistment or induction, will be disposed of as follows:

(a) Those whose release will be unattended by danger to themselves or others will be rejected and disposed of under the regulations governing the disposal of other rejected applicants or selectees.

(b) Those whose psychosis is of a type that would probably make their release dangerous to themselves or others will be delivered to relatives or to the civil authorities designated by law to apply for the commitment of psychotic or insane persons residing in the place where they applied for enlistment or at place of induction. The station commander will provide the necessary escort for such delivery, and issue the necessary travel orders, transportation, and subsistence (in kind or by commutation, as may be most suitable). If they refuse to accept the patient, report will be made to The Adjutant General.

(c) *Patient's effects.* On the day of departure of the patient, his immediate commanding officer will make and sign an inventory, in triplicate, of the patient's effects, money, and valuables. Two copies of the inventory listing the patient's money and valuables, together with the money and valuables, will be turned over, or sent by registered mail to the manager or superintendent of the institution to which the patient is delivered, or to the relative or civilian agency assuming the custody of the patient, with a request that one copy of the inventory be receipted. In the case of a patient transferred to a Veterans' Administration hospital, any money of the patient on deposit in the patients' fund will be transmitted by check drawn by the custodian to the order of "Manager, Veterans' Administration Hospital, _____ (Address of facility)_____, a/c _____ (Patient's name and serial No.)_____." The manager of the Veterans' Administration hospital will acknowledge the receipt of such check by returning a field service receipt to the custodian. If to the knowledge of the immediate commanding officer of the patient a guardian of the patient has been legally appointed, then, in lieu of disposition as above, the patient's money and valuables will be turned over, or forwarded by registered mail to such guardian upon presentation of proper evidence of his or her authority. If such money and valuables are turned over to a guardian a receipt therefor will be obtained; if forwarded by registered mail, a receipt will be inclosed with instructions that it be signed and returned. The other effects of the patient, such as clothing, together with two copies of the inventory of these effects, will accompany the patient as baggage. One copy of the inventory will be receipted by the relative or civilian agency assuming custody of the patient or by a responsible person in the institution to which the patient is delivered and will be returned for file. Prior to the patient's departure, the commanding officer will advise the institution or relative of the fact, stating the time when the patient may be expected to arrive. TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter B—The Foreign Service

[Foreign Service Reg. S-16]

PART 101—FOREIGN SERVICE PERSONNEL

LIMITATION ON MARRIAGE OF FOREIGN SERVICE OFFICERS TO ALIENS

Pursuant to the authority vested in me by Executive Order 9452 of June 26, 1944 (3 CFR, 1944 Supp., 66), as amended by Executive Order 9514 of January 18, 1945 (10 F.R. 771); and by Executive Order 9521 of February 13, 1945 (10 F.R. 1991), § 101.26 is amended to read as follows:

§ 101.26 *Limitation on marriage of Foreign Service officers to aliens.* Before contracting marriage with a person of foreign nationality each Foreign Service officer shall request and obtain permission so to do from the Board of Foreign Service Personnel under such instructions as may be issued to him, and any officer who shall contract marriage with an alien without obtaining in advance the authorization of the Board of Foreign Service Personnel shall be deemed guilty of insubordination and shall be separated from the Service. [Rev. SO 119, Order 85]

TROY SUNSHADE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Troy Sunshade Company, Troy, Ohio, may compute its adjusted ceiling prices for all articles of metal household furniture, which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 8.8 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases of adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereinafter properly determined or established in accordance with Maximum Price Regulation No. 188 and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 by the use of a pricing chart, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590 shall compute their ceiling prices in the manner provided by those regulations.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly es-

tablished ceiling price. For this purpose the "most comparable article" is the one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on February 20, 1946.

Issued this 19th day of February 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

IV. BRIQUETTES

(1) Standard briquettes produced in Kansas City, Mo., manufactured from district 14 coal (maximum price per ton): $13.60.

(2) The prices set forth in the foregoing schedule are on a per net ton basis (2000 pounds to the ton). No dealer may add to the schedule prices any additional charge for the extension of credit.

(3) The prices set forth in the foregoing schedule are for untreated coal. The dealer may charge an amount not to exceed 10¢ per ton in addition to the scheduled prices when the coal is thoroughly and adequately treated, chemically or with oil to allay dust or prevent freezing (See sec. (j)).

(4) A deduction from the prices set forth in the foregoing schedule of not less than 25¢ per ton must be made on all sales made for cash on one ton or more of solid fuels covered by this order. "Sales made for cash," for the purposes of this order, means all sales in which payment is made on or before delivery.

(5) A deduction from the prices set forth in the foregoing schedule of not less than 50¢ per ton must be made on yard sales of solid fuels covered by this order in quantities of one or more tons. If the sale is made for cash, as the term is used and defined in the foregoing sub-paragraph (4), this deduction on yard sales must be made in addition to the deduction for sales made for cash as provided for in sub-paragraph (4) above. "Yard sales," for the purposes of this order, means sales in which the buyer takes delivery at the dealer's yard.

(6) The maximum price on all sales of small lots in quantities of less than one ton put into the buyer's car or other conveyance at the dealer's yard shall be 45¢ per hundredweight for high volatile fuels and 65¢ per hundredweight for low volatile fuels. In sales of this kind the buyer may be required to furnish the container. If the buyer does not possess a container, the dealer may require a deposit charge equivalent to the replacement cost when such container is furnished.

(7) On deliveries of ½ ton an amount not to exceed 25¢ may be added to one-half of the ton price set out in the foregoing schedule.

(d) *Service charges.* (1) Below and as a part of this section (d) is a schedule that sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under preceding section (c). These charges may be made only if the buyer requests such services of the dealer and only when the dealer renders the service.

(i) A service charge not to exceed 75¢ per ton may be charged for the "carry in" service. The "carry in" service means the service of carrying in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space to the buyer's fuel bin window. This service does not include the service of carrying fuel up or down stairs.

(ii) An amount not to exceed $1.25 per ton may be charged for the "double carry in" service. The "double carry in" means the service of carrying in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space and up or down one flight of stairs to the buyer's fuel bin.

(iii) Where a dealer is requested to perform "carry in" services in addition to the services defined in sub-paragraphs (i) and (ii), the maximum price for such additional services shall not exceed the price charged by the dealer for such services during December 1941.

(iv) An amount not to exceed 25¢ per ton may be charged for the service of "trimming." Trimming means the arranging and placing of the fuel in the buyer's bin. This service charge for trimming shall be applicable only to the amount of the fuel actually handled.

(e) *Transportation tax; Missouri State Sales Tax*—(1) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this or-

der; *Provided*, The dealer states it separately from the price of the fuel and lists it separately on any sales slip or receipt given to the buyer. This tax need not be stated separately on sales to the United States or any agency thereof, the State Government or any political subdivision thereof (see § 1340.265 (b) of Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of ¼ ton or lesser quantities.

(2) *The Missouri State Sales Tax.* The seller may add to the prices listed in the schedule in section (c) the sales tax required to be collected by the laws of the State of Missouri. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

(f) *Addition of increase in supplier's price prohibited.* (1) The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(g) *Power to amend or revoke.* The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this order, or any provisions thereof, at any time.

(h) *Petitions for amendment.* (1) Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *License.* (1) Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(j) *Sales slips and receipts; records.* (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order, give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, showing the following information: the name and address of the seller and the purchaser; the kind, size and quantity of solid fuels sold, the date of the sale or delivery and the price charged. In addition he shall separately state on each such invoice, sales slip or receipt the amount, if any, of the required discounts, authorized service charges and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated: *And further provided*, That provisions of this section shall not apply to sales of solid fuels in less than quarter ton lots unless requested by the purchaser.

(k) *Posting of maximum prices.* (1) Each dealer subject to this order shall post all of the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(l) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have evidence of any violation of this order are urged to communicate with the Kansas City, Missouri, District Office of the Office of Price Administration.

(m) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political sub-divisions or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "buy," "purchase," and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operating as an adjunct to any mine, a coke oven or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but if this is unfeasible, because of the absence of a regular driveway free from all foreign matter which might damage trucks and tires, then direct delivery means discharging the solid fuel from the seller's truck directly at the street curb or at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Production group," "price group" and their plurals, as used in this order, refer to the production groups and/or price groups within each producing district as established by the former Bituminous Coal Division of the Department of the Interior and incorporated and/or modified in Maximum Price Regulation No. 120 by the Office of Price Administration.

(6) "District No." refers to the geographical bituminous coal producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight, August 23, 1943.

(7) "High volatile bituminous coal" means coal produced in the high volatile sections of the producing districts specified in this order.

(8) "Low volatile bituminous coal" means coal produced in the low volatile sections of the producing districts specified in this order.

(9) "Solid fuel" or "solid fuels" means all solid fuel except wood and wood products, including all kinds of anthracite and semi-anthracite; bituminous and semi-bituminous and cannel coal; lignite; all coke, including low temperature coke (except by-product foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; and sea coal used for foundry facings.

(10) The "size group numbers" used in the price schedules for coal from each producing district refer to the size groups of coal as numbered and defined in the appendix to Maximum Price Regulation 120 which relates to each such producing district.

(11) "Deep mine" or "underground mine" means a mine from which the coal is taken only from underground seams from which the overburden is not removed, and does not include a mine from which coal is taken by the stripping method.

(12) "Strip mine" means a mine producing coal by the stripping method and taking its entire production from the ground after removing all overburden.

(13) "Machine-cut coal" is coal produced from an underground mine which is cut mechanically by the use of a "cutting machine" before the coal is dislodged for loading either by hand or by mechanical means.

(14) "Solid-shot coal" is coal produced from an underground mine which is shot from the solid and is not cut mechanically by the use of a "cutting machine" before the coal is dislodged for loading.

(15) "Arkansas anthracite," as used in this order, is coal whose analysis and non-coking characteristics are similar to anthracite produced in the Pennsylvania fields.

(16) Except as otherwise specifically provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Maximum Price Regulation No. 122, as amended, shall apply to the terms used herein.

(n) *Effect of this order on Revised Maximum Price Regulation 122.* (1) To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation 122.

(2) This Order G–5 shall become effective the 8th day of May, 1944.

NOTE: The provisions of this order which require approval by the Bureau of the Budget in accordance with the Federal Reports Act of 1942 have been approved by the Bureau of the Budget.

[Region V Order G–23 Under RMPR 251]

Installed Mineral Wool Insulation in Pulaski County, Ark.

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the authority vested in the Regional Administrator of Region V of the Office of Price Administration by Section 9 of Revised Maximum Price Regulation 251, it is ordered:

(a) *Transactions covered by this order.* This order covers sales of mineral wool insulation on an installed basis in existing structures. All items of incidental construction work as defined below remain covered by Revised Maximum Price Regulation 251.

"Mineral wool" means rock wool, slag wool and glass wool blown from molten materials and used to retain or exclude heat.

"Existing structures" means completed structures whether occupied or unoccupied, and includes ordinary changes, improvements, remodeling and additions.

"On an installed basis" means a transaction in which the seller furnishes mineral wool insulation, together with the labor, services and material required to incorporate such insulation into an existing structure. Installation may be performed by the pneumatic or blowing method, by the hand-packing method, or by the use of the batts and blankets.

"Incidental construction work" means work performed or services rendered with respect to a building or structure apart from the installation of mineral wool insulation. It also includes those materials and operations the cost of which are expressly described as not included in the prices of certain items listed in Table I of section (d) of this order.

(b) *Relationship of this order to RMPR 251.* The provisions of this order supersede sections 6, 7, and 8 of RMPR 251, except as otherwise provided in this order, with respect to sales of mineral wool insulation on an installed basis and incidental construction work. Except as otherwise provided herein, all transactions subject to this order shall remain subject to all provisions of Revised MPR 251, together with all amendments that have been or hereafter may be issued.

On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver mineral wool insulation on an installed basis or incidental construction work as herein defined, at prices higher than the maximum prices established by this order.

(c) *Geographical applicability.* This order shall apply to all sales of installed mineral wool in structures located in the area comprising Pulaski County, Arkansas.

(d) *Maximum prices.* The maximum prices for sales of mineral wool insulation on an installed basis shall be those shown in Table I of this section. Prices apply to all types and thicknesses of blown mineral wool and to all types and thicknesses of hand packed loose mineral wool and to batts and blankets. The prices listed in Table I are based upon an insulation thickness of 4 inches. For each inch or fraction of inch of insulation over 4 inches, when ordered by the buyer, the seller may make an additional charge of 2¢ per inch per square foot. For each inch of thickness under 4 inches the seller shall deduct 2¢ per square foot. A ⅜-inch tolerance may be allowed without change in maximum price.

The drawings referred to in Table I are on file with the Division of the Federal Register, and are hereby made a part of this order. Openings and closings: A separate additional charge may be made for openings and closings only in those cases where opening and closing are not specifically included in the price applicable to the category. The charge includes payment for all labor and material including that used for replacement of material where necessary. This charge applies only to work performed by the installer in connection with installation of mineral wool insulation.

The above prices shall be cash prices. If the seller customarily made an extra charge for credit during his base period, he may now make this charge so long as his charge is no higher than the base period charge.

(e) *Measurements.* It shall be the seller's responsibility to ascertain that all measurements are accurate. Measurements for exterior walls are to be taken over all, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted. In the case of elevator wells, ventilators, skylights, monitors and pent houses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the height of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slope add six inches to length of clean span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles.

In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(f) *Maximum prices for special insulation and related work and incidental construction.* The maximum prices that may be charged by sellers for special insulation and related work and incidental construction work for which no separate dollar-and-cents price has been set out in Table I of this order shall be the maximum prices established in accordance with Revised MPR 251.

(g) *Quoting a "guaranteed price".* The seller may offer to sell an insulation job covered by this order on the basis of a "guaranteed price" wherein the seller agrees to charge a fixed amount, provided, however, that the so-called "guaranted price" must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. The seller shall stamp or otherwise mark conspicuously on each invoice or statement a statement in substantially the following form: "Prices are at or below ceiling prices set by OPA Regional Order G–23 under RMPR 251."

(h) *Records and invoices.* Every seller of mineral wool insulation on an installed basis, whether the sale is made as a part of a general contract calling for installation of other commodities or not, shall: (1) Preserve records showing the information given in compliance with sub-paragraphs (i) to (vi) of this section. (2) Upon completion of the work or within a reasonable time thereafter, if requested by the purchaser, give to the purchaser an invoice or similar document showing:

(i) The date on which the installation was completed.

(ii) The name and address of the seller and buyer.

(iii) The number of square feet and type of insulation installed, the thickness of insulation material, and the areas in which such insulation material was installed.

(iv) The price charged for each separate category exactly as stated in Table I, including category number and drawing number.

(v) The terms of sale.

(vi) A statement shown separately on the invoice of any special insulation and related work and incidental construction work.

Every person making sales subject to this order shall notify the purchaser of the existence of this order, and, if requested, show the purchaser a copy of this order and RMPR 251.

(i) *Revocation.* This order may be revised, amended, or revoked at any time by the Office of Price Administration.

This Order G–23 shall become effective February 11, 1946.

SOLID FUELS IN DUBUQUE, IOWA, AREA

An opinion accompanying this Amendment has been issued simultaneously herewith. Order G–16 under Revised Maximum Price Regulation 122 is amended in the following respects:

In Appendix 14, which covers the Dubuque, Iowa, area, paragraph (b), Price Schedule, is amended to read as follows:

(b) *Price schedule.* Immediately below and as a part of this section (b) is a Price Schedule that sets forth maximum prices for delivered sales by dealers in lots of one (1) ton or more of specified kinds and sizes of solid fuels. Service charges are set forth in section (c). Charges for treatment of coal are set forth in section (f). Sales in lots of fractions of a ton or tons shall be governed by the Price Schedule as follows:

(i) On delivered sales of less than 1 ton but not less than ½ ton, the price shall be proportional to the price per ton plus an additional charge of 25¢, but in no event shall the total price be in excess of that for a sale of 1 ton; for example, if the price of 1 ton is $13.85, the price of ½ ton would be $6.93 plus 25¢ or a total of $7.18; the price of ¾ ton would be $10.39 plus 25¢ or a total of $10.64.

(ii) On delivered sales of less than ½ ton, the price shall be proportional to the price per ton plus an additional charge of 50¢ per ton, but in no event shall the total price be in excess of that for a sale of ½ ton; for example, if the price of 1 ton is $13.85, the price of ¼ ton would be $3.46 plus 50¢ or a total of $3.96.

(iii) On delivered sales of more than 1 ton, for each fraction of a ton sold, the price shall be proportional to the price per ton; for example, if the price of 1 ton is $13.85, the price of 1½ tons would be $20.78.

(iv) On yard sales of any fraction of a ton, whether more or less than 1 ton, the price shall be proportional to the price per ton; for example, if the price of 1 ton at the yard is $12.10, the price of ¼ ton would be $3.03; of ½ ton—$6.05; of 1½ tons—$18.15.

The Price Schedule lists maximum prices for the sale of coal on the basis of the type of mine operation by means of which it is produced. On sales of coal produced in District Nos. 7, 8, 9, and 11, the prices established are similar for the same kind and size of fuel regardless of the type of mine operation. On coal in District No. 10, as described in paragraphs IV, A and D, the prices apply to coal produced in deep machine mines only, as described in paragraph VI, B, the prices apply as specified to coal produced in both strip mines and deep machine mines; as described in paragraph IV, C, the prices apply to coal produced in strip mines only. The prices of Pennsylvania Anthracite, Briquettes and By-Product Coke are unaffected by the type of mine operation.

The prices established by this amended schedule supersede those established by the adjustment permitted by Regional Order No. G–19 and G–22 under Revised Maximum Price Regulation No. 122.
